Word from the Arriblad

Dear Arribanen,

The second Arriblad was dropped at the team presentations just two weeks ago but we've got another one ready for you! The third one of the year, that's a splasshhhhhh! But that is not the only splash, since we have three matches this weekend. This makes it SuperSaturday (even though the first team is not here) and we are happy to supply you with the latest and greatest Arriba news and gossip.

What can you expect in this version of the Arriblad? More of the same we guess, but this time we received a lot of letters, quotes, gossips and pictures from everyone (0 to be precise) so keep them coming and send your input to arriblad@arriba.student.utwente.nl or text an Arriblad member directly (0906-0676)!

Kind regards,

The Arriblad.

Word from the board

Dear Arribans,

I have the honor to write a piece for the Arriblad this time (thanks Klaas). This year you will be receiving lots of matches of the week from me, see me at games and activities and at the parties/arriborrels ofcourse! Behind the scenes i will be busy doing this like making the table schedule, organising a referee course and rescheduling games. I'm also part of the media committee, so you might see me making pictures or filming at events!

A little bit about me: I'm in my second year of Technical Medicine, love to discover and travel to new places (if I have money) and love chicken. I've decided I want to be be the next bucket queen (sorry Aniek), if I can finish 20 chicken nuggets first at least. I started playing basketball when I lived in the USA and after returning here just kept playing.

Some of you might have heard people calling me by different names, such as rayray, raymundo, ryan, etc. Basically I answer to all these names 😊

I hope to see a lot of you at the upcoming games and of course at the first official Arriborrel (Thursday November 16th at 22:00)

Adios and kind regards,

Rianne (aka rayray, aka raymundo, aka ryan)

A tough match was ahead for the gents of Arriba when they were facing the top 3 team of B.V. Groningen. When I arrived in the hall the clock was at 15 minutes and there was no sign of the opponent, the advantage of the Enschede inaccessibility were already showing. But, after an extension of the clock, there they were: five players of B.V. Groningen, all in red and ready to go. Surprisingly their team stayed at five, while Arriba was eight men strong. Ten minutes later than planned the game started with Arriba's starting five: Gijs, Alvaro, Silver, Arno and captain Dimitry.

After the opening score of Silver, Dimitry shot a deep three to extend the lead. The pace was high on both sides, Groningen had no intention of backing off to preserve energy and made some scores of their own. This caused Arno to work hard on defense, but already picked up his second foul in the third minute. He was quickly subbed by Rens who kept the pace high. After some nice plays of the screens and splitting of the defense by Silver a Time-Out was called halfway through the quarter. The teams continued to go head to head until Arriba experienced difficulties at the end of the quarter, leaving B.V. Groningen ahead with a score of 21-22.

The second quarter started slow but steady, with a notable slow-motion attempt to keep the ball in the court of Klaas which showed the determination of our men, and the reaction speed of our boy Klaas (the ball was already out of bounds). After some tough minutes, Alvaro managed to make a nice bucket (and one!) in the paint and Arriba was improving their defense resulting in steals from Rens and a fast break from Dimitry for easy points. Groningen came back with a fast break of their own, but Dimitry would have none of it and blocked the attempt at the last moment. Still Groningen kept the pressure up and was slowly increasing their lead. In the 9th minute a fast offense ensued where Silver passed his defender by an amazing hesitation dribble resulting in an easy lay-up. It almost seemed he was alone there, since the other nine players had not even passed the Free Throw line! The teams went into half-time with a score of 31-39.

Our men went into the third quarter with more determination, and already in the second

minute Arriba forced a 24 second violation resulting in a Time-Out from the opponent. Arriba however kept on going and the gents were determined to fight back into the game. In the fourth minute Silver threw a slingshot pass across the court into Dimitry's 1-2 lay-up rhythm and quickly after this Arno did a behind the head pass to Alvaro for some more buckets in the paint. The lead was now back into Arriba's hands at 42-41, but the game was far from over. Groningen returned fire with a barrage of threes resulting in a 47-51 score going into the fourth quarter.

The moment of truth: the final quarter started with Alvaro, Rens, Klaas, Arno and Gijs. The first couple of minutes were uneventful until Gijs and Alvaro played a beautiful Give and Go to open the score. The difference was shrinking, but Arriba was also picking up team fouls along the way. Arno picked up his fourth and halfway through the quarter Arriba stood at four team fouls. This proved to make things difficult in the end. But our men continued, Silver again split the defense as an Estonian knife through butter and Klaas showed his spin-to-win-move under the bucket: 53-55. It was now a close game, and every point counted. However fouls were still made at Arriba's side now leading to free throws for the opponent, who did not miss. After a nice set-up Silver drained a three to bring the score back to 58-62, but unfortunately it would not improve further. While trying to force the score in the final minutes, many shots were missed and Arriba missed focus to close the gap.

Final score: 58-64

Tl;dr: Gents One lost by 6 points against 5 people.

On October 7th, we had already played against this team and won 66-42. We tried a new offense this week at practice, Jäger (not the shot), and wanted to try it at this game as well.

We started the game really unfocused, but kept coming back and at half-time the score was 31-30. We kept putting the pressure during full-court defense and got some steals this way. The third quarter we went head to head. In the last quarter we were 5 points up with about 5 minutes to go. We tried to play it out, but the other team managed to make 1 free throw and score two extra scores. At the last second Dinah shot and made a buzzerbeater, but the refs didn't agree with each other. One said the score counted and the other didn't. To make it a short story: the score didn't count and we lost with one point. We will get them next game for sure! Quote from the captain: "No mercy!"

Final score: 60 – 59

@XJYg'hYUa 'j g"GHUfgD, ('

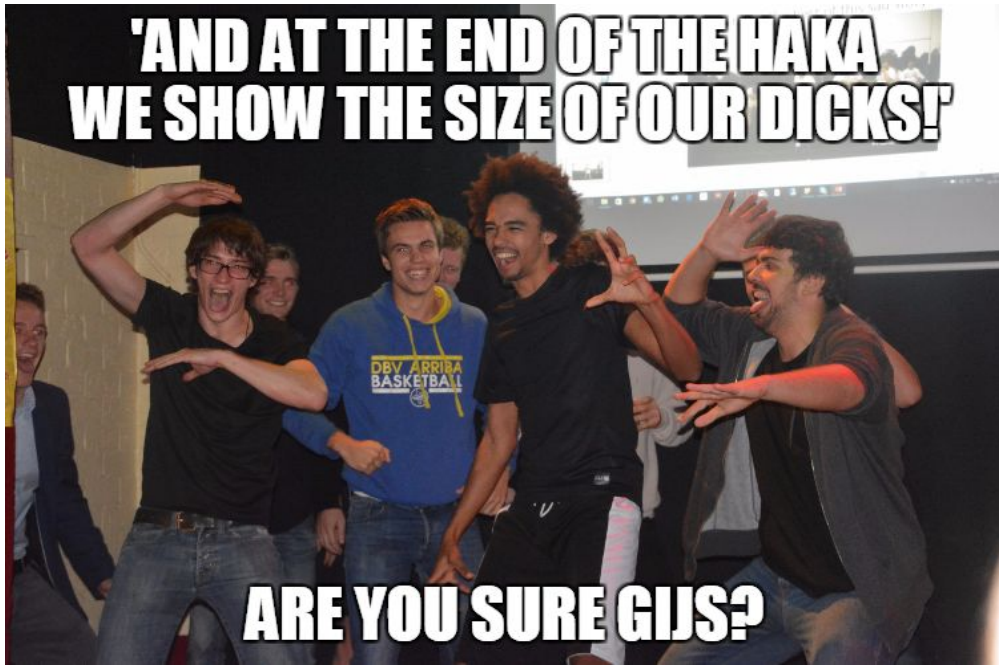

Last Saturday Ladies 1 travelled all the way to Vroomshoop to play a game against Stars' 84. Since Rene had to play a game at the same time, he was not able to be coach us, so Judith was there to fill up his place. We did not start off in a good way, we had a lot of chances but we also missed a lot (not only lay-ups). However, after a few minutes we started playing full court and the opponent did not even have chances at all. Switching to full court did not always go smoothly so this is something we can work on. In the second quarter we played full court as well, and we made 36 points. After the break we played further with half-court defence to keep it a little bit fun for the opponent. The defence was not always perfect, stars were able to push through and we were not always with our man on time. At the beginning we of the last quarter we set goals, to get above 70 point, to keep Stars below 20, and to practise our new offences Jäger, two and three. Practicing the offences was a little bit difficult because the opponent was playing a lazy zone offence so we had pass out of the bucket a lot and shoot from a distance, but the other goals were achieved! With the second win of the season and a good piece of cake afterwards we took the train home.

Final score: 16-78

Dear national sozialist,

According to the fat from Dale (leading Dutch dictionary), since season 2017/18 Arriba is spelled with two R's and a B! So the recreationals were wrong. Shame. Shame. Shame.

Dear Stijn, just start practicing finishing balls and you will be fine, we got word that you live next to the outside basketball court on the campus, if you practice your hookshot there every day for half an hour you will be topscorer every match.

How to: Arriborrel

Arriborrel is a tradition where you drink together and toast. It is a way to bring the group closer together and to have fun. The first Arriborrel will be on Thursday, 14th of November at the Friends. **Hi fgXUmBcj Ya VYf`%h** will be the first one, therefore you need to know how to properly borrel with Arriba.

This year the board wants Arribanen to be a closer group, one way to achieve this is to have drinks, lots of drinks! This is why every Thursday of the month Arriba will have a borrel at the Friends. **Hi fgXUmBcj Ya VYf`%h** will be the first one, therefore you need to know how to properly borrel with Arriba.

When going to a borrel, you of course go dressed properly, so put on your arriba clothing! We not only want Arriba to be seen, but also to be heard this is why during each Arriborrel there has to be at least 1 proper Arriba toast. Here is a quick guide on how to do that:

1. Heu! Heu!
2. Skoll! Skoll!
3. Dip your chin (preferably with beard) in your drink (preferably beer)
4. Wipe the beer off your chin in such a way that it all lands on the chairman.

A proper borrel also needs some shots, Sambuca! Let's take a look at another quick guide:

1. Order a bunch of Sambuca shots
2. Drink it in one go, but don't swallow! (I don't say that often ;))
3. Now flush it in your mouth for at least 10 seconds
4. (optional) If you are an experienced Sambuca drinker you do at least 20 seconds
5. Now swallow, and breathe in heavily while holding a finger in front of your mouth
6. Hold in your cough and you made it!

If you forget any steps, just follow the lead of Sambuklaas.

Last, but not least, the Arriborreels are meant to have fun, so attend them as often as possible! See you **Bcj Ya VYf`%h ž%da`Uh: f]YbXg`**
